AFSAC

SDR Automation (SDR-A)

IPT Meeting

September 23, 2004

Ms. Anita Smith

AFSAC/ITD

U.S. AIR FORCE

I n t e g r i t y - S e r v i c e - E x c e l l e n c e

Purpose of SDR Automation

- **Streamline AFSAC SDR process**
  - Eliminate paper flow
  - Enhance customer visibility of SDRs
  - Reduce overall turn-around time to customers

- **Prototype for automation of USAF SDR process**

- **Accelerates DAASC delivery of Action Agency tools/interfaces**
  - DAASC = Defense Automatic Addressing System Center

- **Security Assistance capabilities:**
  - Prototype for automating SDR process in CEMIS
 - Standardized input & distribution logic for FMS SDRs

Proposed SDR Processing
FY 05 -- AF 'Web' Customers

Average SDR Processing Days = 209 to 109 (62% of Current Submissions)

Customer

Customer Benefits

- **Security Assistance customer**
  - Online SDR submission wizard (including attachments)
  - Email reply (including materiel return documents)
  - Online SDR status query

- **Action agencies**
  - DoD SDR will
    - **Transmit SDR submissions via email w/links to attachments**
    - **Provide online Action Agency Reply tool**
    - **Maintain SDR historical records for 28 years**
    - **Become future source of all SDR metrics**
  - DLA activities (after Jan 05)
    - **Receive and reply to SDRs via Electronic Data Interchange transactions to/from DoD SDR**

Customer Benefits
Continued

- **AFSAC SDR office**
  - Streamlined SDR edit/validation process
  - Manual intervention 'by exception only'
    - **Manual loading of all SDR input, reply, materiel return documents no longer required**
  - Automates mailing of SDRs, follow-ups, and replies

- **DSCA (Defense Security Cooperation Agency)**
  - Prototype for tri-service standardization of SDR processes
  - Designed for easy conversion to the DSCA Security Cooperation Information Portal (SCIP)

SDR Project Status

- **Current Spiral**
  - Developing applications and interfaces
  - Customer testing to begin in October, 04
  - Projected implementation➜29 Oct 04
    - **Schedule delay possible**

- **Future Spirals**
  - Automate materiel return tracking/processing
  - Transition metrics to DoD Web
  - Integrate Army/Navy requirements and transition to Security Cooperation Information Portal (SCIP)

Summary

- **SDR Automation effort will . . .**
  - Improve standardization of SDR process
  - Streamline processes
  - Significantly reduce paper processing
  - Eliminate need for 100% review of every SDR submissions
- **Customers will . . .**
  - Realize 37% cycle time reduction of SDR processing
- **DAASC will (from AFMC SDR automation funding)**
  - Accelerate delivery of SDR Reply tool for action agencies
  - Accelerate delivery of electronic receipt, distribution and storage of FMS SDR data
